LET US BE YOUR PARTNER
THIS YEAR AS YOU MAKE YOUR

**CLASSROOM
COMEBACK!**

As schools reopen and students, teachers, and staff return to campus, there will be increased focus on safety, health, and wellness. This “new normal” can be daunting for schools to plan and implement as they try to navigate uncharted waters.

We surveyed schools around the country to find out what their plans are for reopening, where they see challenges as they bring everyone back to campus, and how we can help.

Here are some easy and effective ideas to help you make the transition back to school safe, fun, and spirit-filled for your students, staff, and teachers.

OUTSIDE SCHOOL

Set them up for a safe, successful, and spirit-filled year, from the first day to the final bell.

CUSTOMIZE SIGNS AND FLAGS IN YOUR SCHOOL COLORS!

- ★ Set up **YARD SIGNS** to welcome students back to school and reinforce safety practices.
- ★ Use yard signs to direct people to the appropriate spot for temperature/wellness checks.

- ★ Outdoor **SAIL FLAGS** are statement-making ways to manage traffic flow and enforce social distancing.
- ★ Use flags to direct people to appropriate entrances and exits, welcome them back to campus, and pump up school spirit.

- ★ Display plastic **A-FRAME SIGNS** indoors or outside to:
 - ◆ direct drivers to drop-off lanes
 - ◆ encourage social distancing
 - ◆ reinforce safety rules

Thank You for Practicing Social Distancing

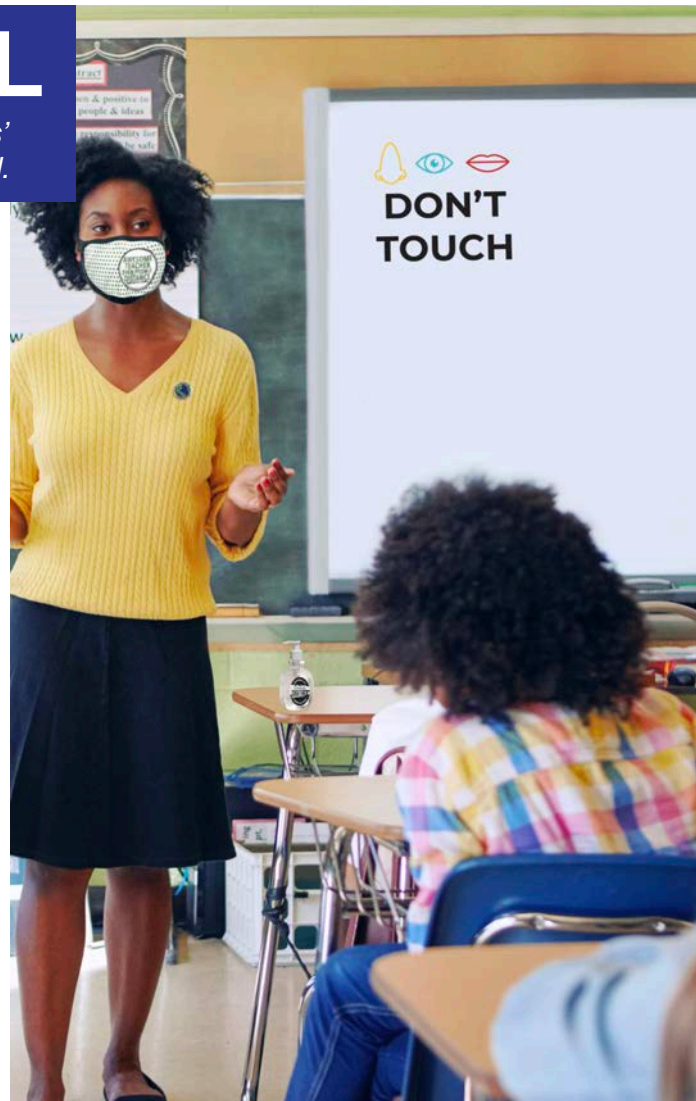

Removable and repositionable **DECALS** are at-a-glance ways to let everyone know where to stand, wait, or go.

TIP: A-frame signs feature removable inserts that can be changed out to meet your needs all year long!

INSIDE SCHOOL

From the school office to classrooms and teachers' lounges, promote safety all throughout your school.

Hand out **ANTI-MICROBIAL PENS** to eliminate pen sharing and the transfer of germs.

Remove and reposition **FLOOR DECALS** as needed to ensure proper spacing of people waiting in line.

Position **ARROW FLOOR DECALS** to create a one-way flow of traffic through school hallways.

School Office

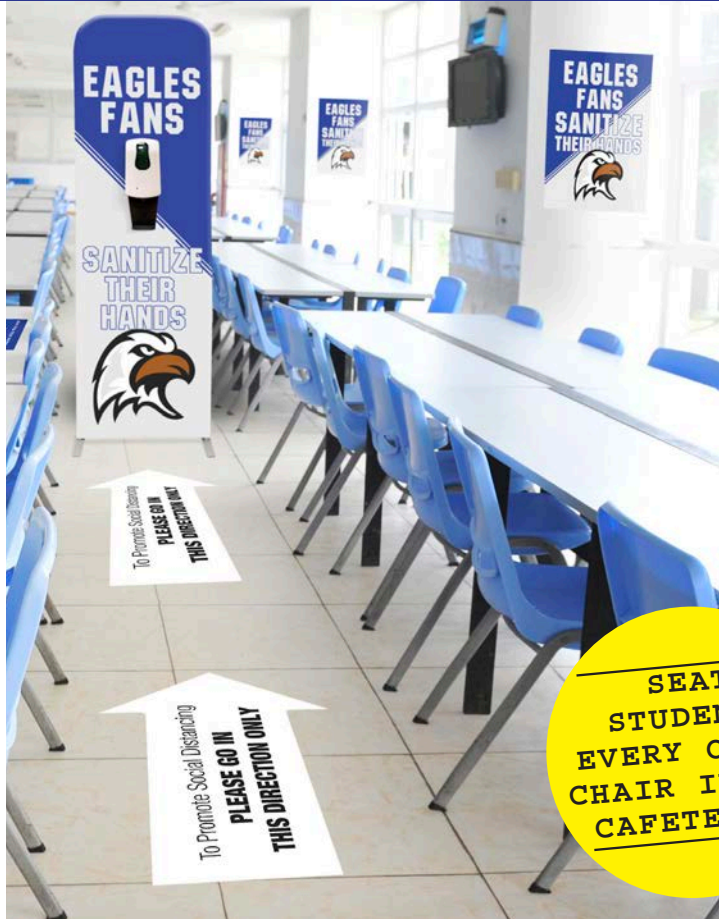

- ★ Put up **SANDWICH BOARDS** to remind visitors of social distancing policies. Customize them with your school name and mascot to promote school pride.
- ★ Use **FLOOR DECALS** to let people know exactly where to stand to maintain proper social distance.
- ★ Display **WALL DECALS** to reinforce safety ideas.

Classrooms

- ★ Place desks at least **6 FEET APART** to ensure adequate space between each student.
- ★ Present fun **MASKS** to teachers as "Welcome Back" gifts to help keep them - and their students - safer.
- ★ Display **DECALS** to remind students of safety rules.
- ★ Equip every classroom or desk with a bottle of **HAND SANITIZER** to encourage sanitizing all day long.

COMMON AREAS

Where people gather, so do germs. We have what you need to help keep germs at bay.

Cafeteria

- ★ Set up hand **SANITIZER STATIONS** at the cafeteria entrance to make sure that everyone cleans their hands.
- ★ Use **FLOOR DECALS** to establish a one-way route through the cafeteria.
- ★ Put **DECALS** on every other chair and table setting to ensure proper spacing among students.

School Events

- ★ Sell **PERSONALIZED WATER BOTTLES** as team fundraisers to discourage sharing of bottles - and germs!
- ★ Make **MASKS** a requirement for participants and fans. Hand them out or sell them at the door.
- ★ Show your school **SPIRIT** with products that display your school name, colors, and safety messages.

PERSONALIZE a water bottle for each student to eliminate sharing - and reduce germ transfer.

Hand out masks especially for **HOMECOMING** to pump up the spirit while promoting safety.

Stock up on **HAND SANITIZER PENS** for busy, on-the-go students, teachers, and staff.

SANITIZER STATIONS

Hand sanitizer will be the newest “must have” school supply.
Stock up in every classroom and common area.

Give each student a pump bottle of **HAND SANITIZER** for their locker and a portable bottle to take on-the-go.

Reinforce hand washing concepts with **DECALS** in each bathroom, Home Ec room, and kitchen area in your school.

Hand Sanitizer Stations

- ★ Available in **TABLETOP** and **FLOOR** models to fit every area in your school.
- ★ **FULL-COLOR** designs are perfect for your school.
- ★ Two options are available in your **SCHOOL COLORS**.

TIP: Front and center = top of mind!

The more hand sanitizer stations you have at your school, the more students and staff will use them.

Set up sanitizing stations everywhere you can:

- School entrances • Office
- Classrooms • Cafeteria • Teachers' lounge
- Gym and locker rooms • Common areas

CUSTOMIZE MASKS WITH YOUR SCHOOL NAME AND COLOR!

Masks

- ★ Masks are **WASHABLE** and **REUSABLE** and come in top school colors.
- ★ Blank masks come in **PACKS OF 10** and are great for handing out to parents, volunteers, and visitors when they enter your school.
- ★ Keep blank masks in stock near the main **ENTRANCE** or in your school **OFFICE**.
- ★ **CUSTOM** imprinted masks make great welcome back gifts for teachers and staff. Customize them with your school name and mascot to help keep your teachers and staff safe and spirit-filled.
- ★ Other mask styles, like multi-functional wraps, mask/lanyard combos, full-color masks, and tie-dye masks are great for your school store or **FUNDRAISERS**.

WEAR A MASK

Over 30% of schools are requiring staff or students (or both) to wear masks while at school*. We have you covered (literally) with masks to meet your needs!

TIP: Make mask-wearing FUN:

- Customize them with a cool logo or message!
- During Spirit Week, award prizes for Most Unique Mask, Most Spirit-filled Mask, Most Colorful Mask, etc.
- Have a Mask Decorating Contest!
- Put a mask on your school mascot!

CLASSROOM COMEBACK 2020

Gear up and get ready to take back your classrooms and bring students, teachers, and staff back for a safe and healthy school year!

Whether you're roaring back to campus or slowly settling in, just remember that you are not alone. We are all in this together. We're here to help eliminate some of the frustration as you make the transition back to school by providing easy, effective, and even fun ways to go back to class in a safe and healthy way.
